

Colloquium on Code of Safety and Actions for Building and Bridge Structures – Wind Action and Seismic Action

Date: 24-25 April 2008

Time: 9:00 to 17:30

Venue: Cultural Centre – Conference Room

Language: Chinese/English (Simultaneous interpretation)

Fee: Free

Speaker : Prof. K. M. Lam (University of Hong Kong); Prof. K T Chau (The Hong Kong Polytechnic University); Prof. Quian Jiaru (Department of Civil Engineering, Tsingua University, Beijing); Dr. Jiang Hui (Earthquake Administration of Guangdong Province); Prof. João Paulo Miranda Guedes (Faculdade de Engenharia da Universidade do Porto); Eng. António Carlos Metello and Eng. Ana Luísa Coelho (LECM)

Organizator: DSSOPT - Direcção dos Serviços de Solos, Obras Públicas e Transportes and LECM – Civil Engineering Laboratory of Macau

Co-organizator: IACM - Instituto para os Assuntos Cívicos e Municipais; GDI - Gabinete para o Desenvolvimento de Infra-estruturas; MABCD - Macao Association of Building Contractors and Developers, MCA - Macau Construction Association, AEM - The Macau Institution of Engineers

Secretary of Colloquium: LECM – Civil Engineering Laboratory of Macau

Content: The Colloquium will consist of two parts. It will be presented the updating of the actual code provisions regarding both the wind and the seismic actions, and also some general communications on regional code concepts that have been used as background base for the newly Macau code revisions.

The objective of this colloquium is to highlight the main conceptual upgrades of those codes, together with some reference to the regional concepts with particular influence on the new Macau wind and seismic revised provisions.

Registration Form

Organization: _____

Full Name: _____ No. of Participants : _____

Address: _____

Tel/Mobie: _____

Fax: _____ Email: _____

If you have any question, please contact Ms. Sheron Che (Tel: 28343372 Ext. 17)

Please fill up this form and send it to FAX 28356702 or EMAIL ccl@lecm.org.mo.
